

AN AWESOME GUIDE TO WIKIRACING!!!

From Wikipedia itself, "Wikiracing is a game in which players compete to navigate from one Wikipedia page to another using only internal links." It's fun and cool and you should try it!
So, TL;DR, the objective is to go from page A to page B only by clicking on links inside of the pages!

To start, choose 2 random pages on Wikipedia (or choose a path of multiple pages, if you're feeling adventurous)! The winner can either be the player with the fewest clicks or the fastest time.
